

Faculty Post-Tenure Review
20²⁵ - 20²⁶ Academic Year

Name: Adam Okulicz-Kozaryn

Department: DPPA (public policy and administration)

Rank: associate prof

Date of most recent review 2018

x Tenure Promotion within tenured ranks Other post-tenure

The post-tenure review process will take place between March 15 and May 30 of each academic year in CCAS. Please see [Rutgers Policy 60.5.6](#) for the university policy on post-tenure reviews. Broadly stated, the purpose of the post-tenure review is to:

1. **Recognize** contributions and changes.
2. **Assist** in developing a plan for long-term success of faculty.
3. **Motivate** faculty members, the College, and the University to act mutually for academic excellence.
4. **Support** in building a pathway towards desired career outcomes.

The Post-Tenure Review is a process that involves both a written summary by the faculty, department chair, and the dean as well as a guided discussion.

INSTRUCTIONS

1. The faculty member must complete this Faculty Post-Tenure Review Form (DocuSign preferred), attach a current CV, and submit to the department chair by **March 15**.
2. The department chair should add their comments to the form and meet with their faculty members no later than **May 30**.
3. A final signed copy with the Chair's and Dean's comments will be retained by CCAS and shared with the faculty member.

Summary of Accomplishments for the period 20²⁵ - 20²⁶

Chair's Commentary:

Teaching:

Adam has contributed to teaching in the interdisciplinary program in Data Science, of which the primary departments are Mathematics and Computer Science. He has also served as the faculty advisor for Ojobo Agbo Eje's (Data Science) Urban Innovation Fund Grant. The project focused on designing a tool to visualize health data across the city. Dr. Okulicz-Kozaryn also received the DPPA Jay A. Sigler award for outstanding service and dedication to students in 2025.

Adam is currently supervising dissertations for 4 Public Affairs students and serving on 4 PA committees. In fall 2026, he plans to take the role of dissertation chair for a 5th student in the Prevention Science program.

Adam also supervises master's theses for the Data Science program.

Scholarship:

Since receiving tenure and promotion to associate professor, Adam has published over 30 peer reviewed journal articles. He has a strong focus on the field of happiness and well-being studies. He regularly publishes in *Cities* (IF 7.8), and he has published in *Social Indicators Research*, a prominent journal focused on quality of life issues (ranked Q1 Social Sciences). He meets expectations in terms of quantity of publications and journal placement. Adam also received an external grant (\$1500) from the South Jersey Institute for Population Health (SJIPH) in 2026. He has co-authored 7 articles with Public Affairs PhD Students.

Service:

Adam has provided commendable service to the profession by serving as an ad hoc reviewer for numerous academic journals. He has also served as a co-editor for the journal *Social Indicators Research* since 2024. At the School of Arts and Sciences Camden level, Adam's Service activities have included the Appointments and Promotions committee, the Camden Faculty Senate, and chairing the Faculty Life Committee.

Additional Comments:

Adam submitted a draft of his post tenure review on April 15, and I provided feedback on April 16. Adam submitted his completed post tenure review form on May 6. I added my comments to an earlier draft of this statement on May 8, 2026. On May 10, I sent Adam several possible dates for discussion and we eventually met to discuss the feedback on May 18, 2026. The comments presented here have been revised based on this conversation. Please see attachment.

- Cambridge U Pr [23]

Served on editorial boards:

- Social Indicators Research: Associate Editor / Co-Editor² Jan 2024-??
- Political Behavior Jan-Dec 2019

Reviewed grant proposals:

- Polish National Science Foundation (NCN)
- Israel Science Foundation (ISF)

SERVICE TO STUDENTS:

Publications with students (all students unless indicated: “[not student]”):

9. AOK, L Martinez [not student], E Mikhaeil; Happy Colombia, Unhappy Bogota (urban-rural happiness gradient in Colombia) Wellbeing, Space and Society 2026
8. E Mikhaeil, AOK; Well-Being and the authoritarian welfare state: sector of employment and human happiness in Arab countries; Public Organization Review 2025
7. MJ D'Italia, AOK; Constructing General Human Agency Indicators (GHAIs) and a General Personal Agency Scale (GPAS); Social Indicators Research 2025

¹As a co-editor of Social Indicators Research, conducted through reviews (printed out, marked up, etc). Note: this is different from regular editing, where I just skim through the paper or read some parts only; and hence this extra work is listed here separately from editing as reviewing [starting oct2025 each such review marked with 2 last digits of year]

²This is not just sitting on the board of the journal and having an occasional board meeting, I am editing papers every week spending as of 2026 $1 + hrs/wk$ (earlier as i was less experienced it was $2 + hrs/wk$) on skimming through the submitted manuscripts, inviting reviewers, reading reviews, and making editorial decisions.

6. E Mikhaeil, AOK; Public-private job satisfaction differential: The case of Egypt; Public Organization Review 2025
5. AOK, BK Everett, E Mikhaeil; Happiness is In The Air if It Grows (Growing Places are Happier than Shrinking ones); Urban Affairs Review 2024
4. E Mikhaeil, AOK; Subjective well-being and urbanization in Egypt; Cities 2024
3. S Deb, AOK; Exploring the association of urbanization and subjective well-being in India; Cities 2023
2. FA Abarghuie, R Javadi, E Mirabi, AOK; Experience of urban thermal pleasure: A qualitative study to the understanding of thermal-scape quality; Cities 2022
1. R Stansfield [not student], E Aaronson, AOK; Police use of firearms: Exploring citizen, officer, and incident characteristics in a statewide sample; Journal of criminal justice 2021

Supervised dissertations for [year of graduation, first job]:

8. Wei Chen [28??]
7. Erick W Udogu [27??]
6. Douglas N Zacher [27??]
5. Marlo Rossi [26??]
4. Michael D'Italia [24, RU-Camden] PDF
3. Shibin Yan [24, Walter Rand Institute for Public Affairs] PDF
2. Aditi Manke [21, Virginia Tech] PDF
1. Shourjya Deb [20, SIPRI] PDF

Supervised dissertations for less than the whole duration:

1. Helena Cabezas [Fall 25 only]

Served on dissertation committees:

10. Jason Schweitzer (Prevention Science) [27??]
9. Daniel Assamah [27??]
8. Monty Sanders [26??]
7. Brian Everett [27??]
6. Kate Cruz [22]
5. Charles Ian Hugh Forsyth (University of Otago NZ) [22]
4. Straso Jovanovski [19]
3. Spencer Clayton [18]
2. Rasheda Weaver [17]
1. Chris Wheeler [17]

Served on dissertation committees for less than the whole duration:

1. Yanan Li [stopped serving just before the proposal in 2023]

Supervised data science master thesis for [year of graduation]:

6. Nalluri Chandrahas [26]
5. Bhavyani Dodda [25]
4. Thanvitha Reddy Munagala [25]
3. Pavan Satya Venigalla [25]
2. Het Rakeshbhai Patel [25]
1. Raman Srinivas Naik [25]

Served on master thesis committees in social science:

2. Ethan Aaronson (crim) [20]

1. Rachel Wagner (psy) [20]

Independent/Directed Study [starting in 2023 counts shown (2014-present)]:

- fa25 x1
- sp25 x4
- fa24 x7
- sp24 x2
- fa23 x1

Researchers/Predocs/Postdocs/Lab Members/Visiting Scholars:

- hired 2 data scientists (Sep 2025-Jul 2026)
- planning to host Visiting Scholar, Professor Leonie C. Steckermeier Fall 2026

DEPARTMENTAL AND CAMPUS-WIDE SERVICE:

At Rutgers-Camden served on the following departmental committees:

- Awards/Events, chair 2013-16, 2021-22; 2023-25
- Awards/Events, member 2012-13, 2019-20, 2023
- Strategic Planning, member 2019-20
- PR/Website, chair 2014-16
- PR/Website, member 2012-13
- PhD, member 2014-21
- Methods Qualifying Exam, member 2012-21

Other Rutgers-Camden departmental service:

- held dissertation seminars for a group of doctoral candidates (in addition to one-on-one) Fall 2025
- led Brown Bag Seminars 2018-19; 2023-24
- As co-editor of a journal organized "Publish or Perish" workshop Oct 2024

At Rutgers-Camden served on the following campus-wide committees:

- AI committee Fall 2025
- Advancement and Promotions (A&P), member/ad hoc chair 2020-25
- Advancement and Promotions (A&P), member 2018-19
- Faculty Senate 2018-25
- Faculty Life, chair 2019-22
- Faculty Life, member 2014-15

Other Rutgers-Camden campus-wide service:

- led creation and maintenance of data science lab and MS in data science and associated certificate programs 2018-22
- served as director for data science certificate: <https://graduateschool.camden.rutgers.edu/graduate-programs/#certificates> 2022-??
- organized Geographic Information System (GIS) workshop attended by faculty from across the campus <https://theaok.github.io/shortGIS/> 2017

COMMUNITY SERVICE

provided data management for:

- Ohio Business Round Table (contracted by Miami University, Ohio; Contract Amount: \$7,000) 2022

- 2018 Michigan Economic Competitiveness Study, Michigan Chamber of Commerce (contracted by Northwood University, Michigan; Contract Amount: \$5,000) 2018

assisted following Rutgers-Camden students in their community projects as a faculty advisor:

- data science MS Ojobo Agbo Eje: "Camden Health Equity Data Visualization Initiative" project: [click for news item] [hired/supervised 4 students, budget \$30k] 2024-26
- public affairs PhD Zach Chengcheng Yue at Walter Rand Institute: Covid-19 in Atlantic County ... Spring-Fall 2025
- public affairs PhD Marlo Rossi at Walter Rand Institute: Abortion in South Jersey; and other projects on abortion: [click for news item] Fall 2025-Spring 2026
- MPA Olorunfunmi Adebajo's internship at the Camden County Community Development Office's Homelessness Assistance Unit: [click for news item], 2024

other community service:

- made GIS maps dashboard (containing work by students in my GIS class): available on campus or via RU VPN only: <https://maps-dppa.camden.rutgers.edu/index.php?search=map&title=Special%3ASearch&profile=default&fulltext=1> 2019-23
- assisted Hunterdon Central Regional High School student: happiness paper class project Fall 2025-Spring 2026
- organized Geographic Information System (GIS) workshop for The Walter Rand Institute for Public Affairs <https://theaok.github.io/shortGIS/vShortGeoda.pdf> 2019

- Vistula University, Warsaw, Poland (2015-18)

research

Since 2017, when I have submitted my materials for promotion to associate professor with tenure, I have published 36 peer reviewed articles, including 7 in Cities, a journal with impact factor (IF)=7.8, higher than widely considered the top journal in public administration in the US, Public Administration Review with IF=6.2. (<https://www.scimagojr.com/journalsearch.php?q=16956&tip=sid> and <https://www.scimagojr.com/journalsearch.php?q=17167&tip=sid>). 4 articles are in Social Indicators Research (out of which 1 provisionally accepted/minor revisions), and 9 in Applied Research in Quality of Life, both leading/main journals in my field.

teaching

I am 2025 recipient of department's Jay A Sigler award for "outstanding service and dedication to students" (awarded by students); the plaque says "this award is given to the faculty member who exhibits a commitment to student's academic development and personal growth."

Since 2020, I graduated 4 PhDs, they all have a job. One is at SIPRI (Stockholm International Peace Research Institute), a think-tank ranked 11th or 31st worldwide (<https://thinktankalert.com/rankings> and <https://guides.library.upenn.edu/c.php?g=1035991&p=7509972>). Another one at Virginia Tech and the other 2 were employed at Rutgers when they graduated.

My students publish. Since 2020, I have published 10 peer-reviewed papers with my students (9 published and 1 provisionally accepted/minor revisions) in good journals including 3 in top ranked Cities with Impact Factor of 7.8.

I make sure I am available and approachable for students spending extra time outside of classroom: working on papers, being accessible via zoom and in person, including when on sabbatical. Now in Spring 2026 I am on sabbatical, but I still have 4 students enrolled in my dissertation hours, and I work with others on papers.

One highlight is unusually heavy curriculum development. Since coming to Rutgers-Camden in 2012, I have taught over 10 different classes, developed from scratch

most of them, including 3 courses in 2023 for our new data science program.

I am updating my teaching materials each time I teach a class.

I strive to improve my teaching: I just attended cybersecurity trainings (most of my teaching is computer coding or data science-- cybersecurity matters

there), and attended Instructional Design and Technology (IDT) workshop on "Crafting the Learner-Centered Syllabus" in 2024.

And I quite regularly read on teaching and mentoring advice, tips and tricks on

nature.com, chronicle.com, and insidehighered.com.

One highlight is that the skills learned in my classes work in the real world:

``The classes I took with you are helping not only my scholarship, but my day

job. Thank you [...] I greatly appreciate it.'' and ``subject: Received a Job

Offer [...] I would like to thank you for all of the guidance and knowledge during all of your data-related courses the past several semesters to help me get to the point

I am at today.'' and ``since graduating I have continued to pursue more

projects in the coding world. Some analysis projects, business models, and even

some fun web apps and game designs. I appreciate all the help and motivation you

gave me in class as it helped me to really see what I can come up with from all

of the useful tools, how to plan and build on projects, and skills gained from

having you as my professor.''

And students appreciate my approach and style:

``I am reaching out to explore the possibility of having you as my graduate advisor. My experience in your Data Management course left a lasting

impression on me and I appreciated your approach and teaching style. I believe

your guidance would be invaluable in helping me navigate the academic journey

towards finishing my doctoral degree.'' and

``This is Teacher Appreciation Week and I just wanted to take a moment to say

thank you for all the hard work and dedication you put into teaching. Your

passion for education has inspired and impacted me in so many ways. Your

commitment to helping your students grow and learn is truly admirable. Thank you

for all that you do!'' and ``Please know

that I deeply appreciate everything you have done for me, and I recognize the

many ways you have helped me grow as a scholar and, frankly, as an agentic

person in general. I am truly grateful for you.''

And my classes might have even contributed to retention in the program: ``"I have learnt so much about my region is really unbelievable and I have enjoyed working with you a lot. So much, I am actually considering STAYING in the program because of you!''

service

My service mostly builds on and derives from my main focus and strength, research. I provide such service in two main ways: 1) to the profession/scholarly field, and 2) to students.

I review about 3-4/mo or 36-48/year papers for journals, including the top journals such as Journal of Personality and Social Psychology and Public Administration Review (see CV for details).

Reviewing is an essential foundation of scholarly fields, and it is increasingly in short supply--something I can attest as a journal editor.

Since January 2024, I co-edit Social Indicators Research, the leading journal in my field of quality of life and wellbeing. My editorial philosophy is to be mentor and helper, not just gate-keeper--for instance, I am often in favor of revision prior to external review, and I try to guide the authors, especially the junior ones.

My research-oriented service over past 6 years 2020-2026 to students is:
published 10 peer-reviewed articles with students as co-authors (9 published and 1 provisionally accepted/minor revisions), supervised 8 dissertations (4 graduated; 4 in-progress), served on 6 dissertation committees, supervised 6 data science master theses, served on 2 master thesis committees in other social science, and supervised 15 independent studies. I have also led brown bag seminars and organized a workshop on academic publishing.

And I am very excited about bringing to campus an award winning junior professor from Germany as a visiting scholar for 2 months in Fall 2026: Leonie C. Steckermeier. Leonie is a productive scholar already benefiting 2 of our doctoral students--we have monthly or so zoom meetings where we are already working on papers.

I contribute service to the campus and department. Over 2018-2022 I have led the development of a new MS in data science and associated certificate program. This was a substantial undertaking and also somewhat challenging as the newly created programs are located outside of my home department. I have been serving since 2022 as a director for data science certificate (See certificates at the bottom of the page: <https://graduateschool.camden.rutgers.edu/graduate-programs>).

I am currently supervising 2 courtesy appointments as volunteer researchers in the department--they work with me on research but also helped students in my class. I frequently serve as either ad hoc chair or member on Advancement and Promotions (A&P) committee. I find this service fulfilling. I contribute to promoting quality faculty in our social sciences and I learn about my colleagues. Other committee service is enumerated in the CV.

While research-oriented service is my strength and passion, and usual campus and departmental service is my duty, I am also mindful of Rutgers-Camden public/community service/engagement mission. I agree that as a public university, we also need to engage with and provide service to the public and community.

I have assisted a number of Rutgers-Camden students in their community projects over past 5 years serving as a faculty advisor for, for instance:

Olorunfunmi Adebajo's internship at the Camden County Community Development Office's

Homelessness Assistance Unit, news item:

<https://patimes.org/from-research-to-county-strategy-how-negative-learning-shaped-camden-countys-shared-housing-innovation>

; Marlo Rossi's project at Walter Rand Institute and other projects on abortion, news item:

<https://theconversation.com/abortion-laws-show-that-public-policy-doesnt-always-line-up-with-public-opinion-274699>

; and Ojobo Agbo Eje: "Camden Health Equity Data Visualization Initiative" project, news item:

<https://camden.rutgers.edu/news/rutgers-camdens-urban-innovation-fund-fuels-transformative-community-projects>

New Jersey first, but I have been civically engaged outside of the Garden State as well. For instance, I have used my data management skills to assist with data collection and management for Ohio Business Round Table, and Michigan Economic Competitiveness Study.

research

Near future trajectory goal remains similar: ≥ 3 papers per year in good journals. In addition to European and North American focus I plan to add Latin American focus. I plan to spend more time on grant writing as I plan to grow my research group, hire students and post-docs, and do course buy-outs.

teaching

My future teaching preference would be to continue with the classes I have already taught, and there are plenty of them, over 10. My strength and preference is data science classes, but also happiness class that aligns with my research. I have been also developing a new class ``social indicators'' that would be broader than just happiness and include topics such as trust, freedom, and meaning. This would also align with my editorial position at Social Indicators Research journal.

I am interested in teaching short courses / microcredentials. I have already taught a short GIS course (<https://theaok.github.io/shortGIS/>) twice, informally, for my colleagues from the department and other faculty from Arts and Sciences, and for Walter Rand Institute. But I would like to teach more often and other short courses. There is an initiative to create Microcredentials and Digital Badges--I would like to participate in it.

service

In the ideal world, I would like to continue with research-oriented service. In particular, I would like to increase my research group and co-author more with students, and ideally postdocs. Chairing dissertations and leading independent studies would also be my strength and preference. I'm happy to take on more administrative duties such as co-editing another journal.

Additional comments for Adam Okulicz-Kozaryn:

On the face of it this is a good record. However, there are underlying problems with Adam's performance. Specifically, Adam has been very contentious in his interactions with faculty in the department. He has threatened to sue 3 faculty members in the department. His threats have strained working relationships in the department. This makes it extremely difficult for Adam to work with faculty members at lower ranks; at the same rank, but with fewer years of service; and even full professors. Adam also threatened to hold up a PhD student's proposal over a methodological dispute with the committee chair.

Although Adam has requested that the threatened lawsuits not be mentioned here, it is important to document the impact that this behavior has on the functioning of the department.

Teaching: As a result of Adam's behavior, I have only one full professor that Adam has not threatened. I assigned this professor to conduct Adam's peer observation. Adam resisted allowing the faculty member to conduct the observation and delayed the process.

After multiple email exchanges, Adam finally complied with the classroom observation. However, he sent an email to the observer prior to the observation stating:

Pls don't disturb the class or interrupt or say anything in the class.

I'm happy to have this visitation in the spirit of collegiality, but please note I have concerns about your evaluations from the past as non-factual, unreasonable, and unfair.

Also please note you are not my mentor, and I'm not trying to learn anything from you.

After the observation, the peer observer provided constructive feedback (although later than anticipated) and Adam argued with and rejected nearly every recommendation that was made.

This behavior is unacceptable. Adam needs to collaborate with the peer observers in the department. He also needs to reflect on the feedback provided and develop an action plan for improvement in areas identified by the observer.

In addition, student comments on Adam's SIRS reports indicate that his approach to teaching could be more organized. Sample comments include (see attachment for comprehensive list):

- This course needs a clear and complete syllabus as well as clear assignment instructions and an overall grading scale or rubrics for each assignment.
- Provide students with a grading rubric and clear expectations. Provide clear instructions for assignments.

- Better organize the syllabus and slides
- Needs to be better organized
- Not having a clear syllabus document and one central course page on one platform made it extremely hard to keep track of class assignments and progress
- Course needs a structured, organized Canvas site; the course website is confusing and difficult to navigate.
- This instructor needs to learn basic pedagogy.

I recommend that Adam make an appointment with Camden IDT to get assistance with revising his syllabi and building effective Canvas sites for his courses. Adam did state that previously made some revisions to his Canvas sites such as including specific due dates, I am currently unable to view them. Based on the student comments, I strongly advise him to meet with IDT.

I previously spoke with Adam about the following courses: GIS, Data Management, and Data Visualization. Adam has pivoted to using only Python in these courses. His rationale is as follows:

- “Python is the future of coding, QGIS may disappear”
- He can’t teach 2 different methods in the same class
- When DPPA and data science courses are cross-listed, he goes with the majority of students (e.g., data science)
- Since these courses are electives, he doesn’t see the need to make adjustments.

His syllabi use the following phrases:

- students need to have “the ability to learn basic coding”
- “if you have difficulty using a computer, this class is not for you”
- “warning if you can’t learn simple coding in Python, this class is not for you.”

This language does not create a welcoming environment for DPPA students. Although, he previously used QGIS for the course GIS in the Public Sector and Stata for the MPA/Public Affairs version of Data Management, he stated he will no longer provide alternatives to Python in these courses. He also stated that Data Visualization is all Python.

This approach poses problems because it makes his courses inaccessible to some of our DPPA students. Adam’s response to our discussion was that AI now writes and debugs code, so it is actually easier for students because they don’t have to learn how to code.

Adam has been very dedicated to teaching the data science classes, but he seems less attentive to the needs of DPPA students. In our discussion, Adam noted that he added the phrases above such as “warning if you can’t learn simple coding in Python, this class is not for you” in response to the comments that students made in SIRS.

In addition to consulting with IDT, I recommend that Adam work with Bill Fitzgerald and other teaching mentors on the Camden Campus to address the issues highlighted above. We discussed that consulting with IDT and Bill Fitzgerald does not eliminate the need for DPPA faculty to conduct peer observations of teaching.

I would like to see Adam make a stronger contribution to teaching in his home department. Specifically, it would be helpful to have Adam take responsibility for the Regional and Economic Development course in the MS/PhD program and possibly one of the core PhD courses. However, during our discussion Adam indicated that he does not want to teach this course. He only wants to teach courses related to happiness/wellbeing and data. He also recommended that the PA curriculum be revised to fit current faculty members' interests.

We discussed the number of dissertations Adam is currently chairing (4), and I advised against taking a on a 5th dissertation in Prevention Science.

Service: Although Adam's service to the discipline and the Camden campus is good, I would like to see a stronger level of service to the department. Several DPPA faculty members have heavy service loads as program and center directors. As a result, we need Adam to take a stronger role in supporting the department.

In his previous service on the Public Affairs committee with comprehensive exams, he submitted questions that had been posted online and could not be used. He appeared to put little time or effort into his work on the MS/PHD committee and informed the interim director that his approach to committee work was based on a book titled, *The Subtle Art of Not Giving a F**K*.

Adam mentioned that he does not currently want to serve on the MS-PHD committee and he won't get involved with it unless the requirement for comprehensive exams is eliminated.

There are opportunities for Adam to take on a greater leadership role in several areas, including:

- Assisting the department with:
 - data dashboards
 - graduation rates for students,
 - data collection,
 - assisting with data from affiliated centers
- Data Mentoring
- Workshops for PhD Students

Adam stated that these activities are not part of his job description and he is not willing to do this unless he is given additional pay through a grant or contract. He did state that he would be willing to offer 1 workshop per AY (limited to 1-2 hours).

In his current role as Chair of the Awards and Events Committee, Adam needs to pay more attention to details. For example, in organizing the practice sessions for students participating in the UAA conference, he needs to clearly communicate the expectations and details of the practice sessions and coordinate multiple email reminders.

In the past, Adam has been enthusiastic about organizing brown bag presentations with graduate students. It would be helpful for him to re-engage with this practice. This aligns with his role as chair of the Awards & Events Committee. As noted above, he needs to take initiative in scheduling and communicating expectations/details of the events with faculty and graduate students. However, Adam stated that he no longer plans to chair or serve on the Awards and Events committee.

Research: Adam stated that his strength is in research, and he believes this is his contribution to the department. He stated that he may consider taking on editorship of a second journal. Adam became argumentative during this part of the discussion and rejected any input.

Conclusion: Adam complained that the post-tenure review is supposed to be forward-looking. I explained that the document is both a review of previous actions since being granted tenure (or in the 5 years preceding the most recent review) and a description of future plans.

Going forward, it would be helpful for Adam to work on establishing more collaborative relationships with faculty in the DPPA. He also needs to strengthen his service to the department. It was not feasible for Adam to take on additional DPPA committee service in AY 2025-2026 due to his spring 2026 sabbatical that would take him away from campus from mid-December 2025 through mid-to-late August 2026.

Adam indicated that might be willing to serve as the Public Affairs program director and chair the MS/PHD committee in a year or so. If he intends to transition into this role, he should begin serving on the MS/PHD committee in AY 2026-2027 so he can become more knowledgeable about the policies, procedures, and roles of the program director.

He also mentioned that he might be willing to serve as the department chair in a year or so. High-quality, successful service as a program director, including participation in the graduate program directors' meetings, could be a steppingstone to the department chair role. If Adam is serious about taking on these leadership roles, I recommend that he participate in the Associate Provost for Faculty Affairs' leadership workshop once he becomes program director.
